

ABB CUSTOMER WORLD – AUSTRALIA , MARCH 2018

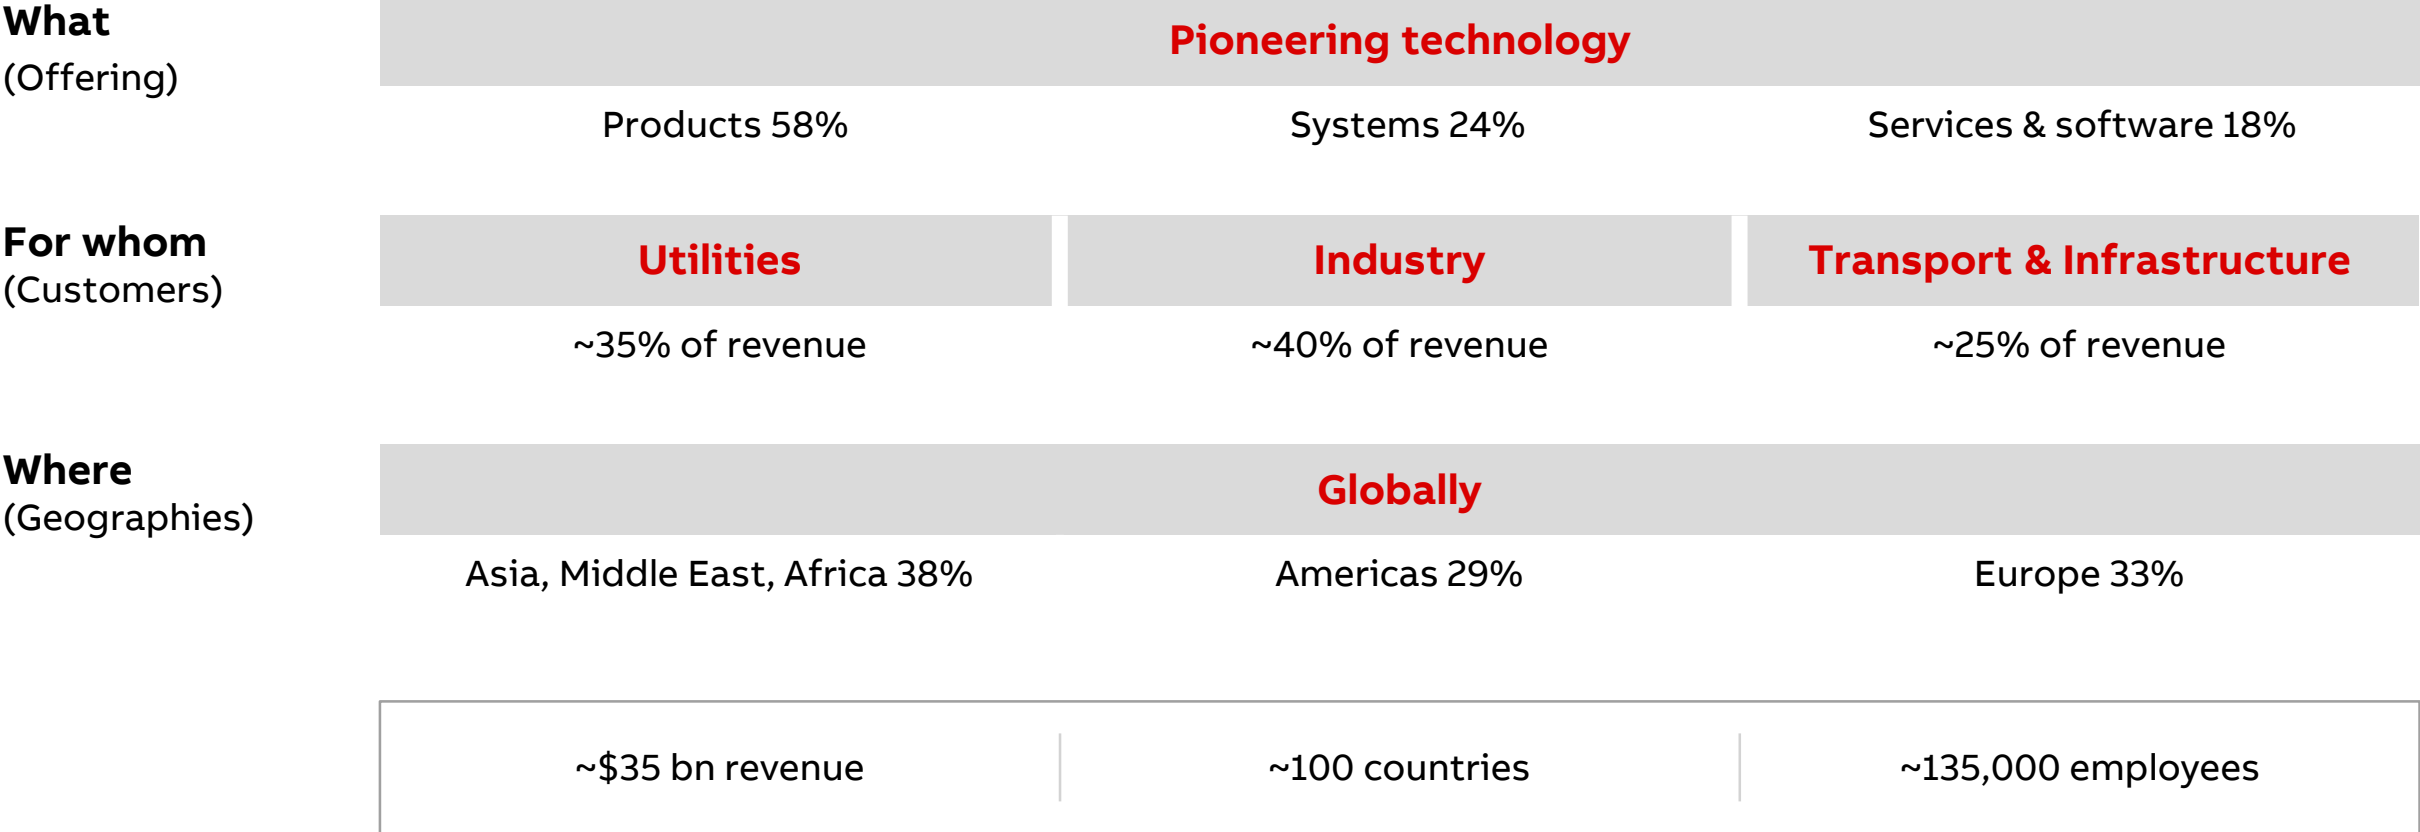

# **Welcome to ABB Customer World 2018 – Australia**

Tauno Heinola, Managing Director, ABB Australia

# Welcome to ABB Customer World 2018 – Australia

ABB – your partner of choice

# ABB today

Bringing electricity from any power plant to any plug

**Power Grids**

**Electrification Products**

Automating industries from natural resources to finished products

**Industrial Automation**

**Robotics & Motion**

## Partner of choice for....

....a stronger, smarter and greener grid

#1

....electrification of all consumption points

#2

....perfection in automation

#2

....robotics and intelligent motion solutions

#1 motion  
#2 robotics

# ABB in Australia

Orders Dec 2017  
**\$750 MAUD**

Total workforce  
**1,300**

14 sites across Australia supporting all ABB systems and products

Global R&D and technical lead centres for Microgrids, Grid Stability and Enterprise Software

Local manufacturing of LV systems, instrumentation systems and HV capacitors and power quality equipment, and Metal Enclosed Capacitor Banks

# ABB in Australia – pioneering technology leader

**World first SF6 gas management solution**

**Hybrid microgrid solution**

**World's largest high pressure grinding roll drive**

**Integrated automation**

Let's write the future.  
Together.

The ABB logo is displayed in a bold, red, sans-serif font. It consists of the letters 'A', 'B', and 'B' in a row. Each letter is composed of two overlapping shapes: a top half and a bottom half, separated by a thin white vertical line. The 'A' has a white vertical line down the center, while the 'B's have white vertical lines on their left sides.
